

# Annual networking conference 2016

community  
food and health  
(scotland)

**Chewing things over ...**

Wednesday 26 October 2016  
Dynamic Earth, Edinburgh

**NHS**  
Health  
Scotland

## About the event

The focus of the day will be on food, health and inequality – taking a compassionate and dignified approach.

Come and share your knowledge and experience, hopes and concerns, with volunteers, fieldworkers, planners, policy-makers and academics from across Scotland and beyond.

## Would you like to be involved on the day?

We have already engaged a number of stakeholders in the planning of this event, but if you have any suggestions – from a new resource you have developed to a valuable experience you would like to share – please let us know and we will try to accommodate it as much as possible into the day. For more information about how you can be involved, please contact **[alice.baird1@nhs.net](mailto:alice.baird1@nhs.net)**

## Programme and registration

A full programme will become available when registration opens in September 2016.
