

# Evaluating Community Cafes

Keep it proportionate & appropriate

What outcomes are key for whom?

Eg. customer, volunteers, trainees, the community or other stakeholders

Informal is OK, just ensure it is recorded

after - before = distance travelled

And some can peak then decline!

It's a chore that doesn't have to be a bore

Keep it manageable, chunk it up

Being involved can empower & affirm

Self reported

Third party, awards, records

Get evidence from more than one perspective

Observation

Feeding back findings can motivate, inspire & reward
